Attention: Ralph A. Haller

**Oregon City School District's comments in response to
the Commission's Notice of Proposed Rule Making.**

Dear Mr. Haller:

We have approximately 42 vehicles with two-way radios at the Oregon City School District Transportation Department. It is very important to the our district to have this type of service. Because of the Ballot Measure 5, our budget would not allow us to purchase new radios or be able to purchase air time.

Our school bus drivers use the radios for emergencies and safety concerns for the students. We also have buses that transport students with special needs. It is very important to have communication with these drivers in the event of a life threatening emergency.

Our buses also travel a wide range of areas and have to be able to transmit long distances. It is important to have adequate power to do so.

Sincerely,

Jane Frey
Transportation Supervisor
